HEALTH, SAFETY & ENVIRONMENTAL

- We the management of ESSVEE is committed to and understand that the safety and health of our employee is one of the utmost important elements. ESSVEE is committed to provide and maintain a safe and healthy work environment and to promote safe work practices in its entire operational and work execution process.
- The management shall generate continual efforts for the improvement and prevention of occupational accidents, through setting of measurable means to review and monitor the performance periodically in order to ensure the effectiveness of the safety management system.
- As the MD of ESSVEE, I accept and undertake the ultimate responsibility of the implementation of the health, safety, environment & quality policy in the organization.
- We will communicate and encourage and support the management of HSE and Quality in ESSVEE via Manager, Engineer and Supervisors throughout the organization.

SERVICE & MAINTENANCE

- ✓ ESSVEE provide comprehensive air conditioning servicing and maintenance plans for our customers throughout India by **24/7 - 365 days**.
- ✓ Maintenance is most importance in ensuring your air conditioner has a long and trouble free life. The experience in the industry has shown that bimonthly filter cleans combined with bi-annual major and minor services results in machines that operate to their fullest capacity and have longer life spans.
- ✓ ESSVEE confirm this point by providing a 1 year warranty on all new units, if the machines are serviced regularly from date of installation. Following this, failing to properly maintain the unit's results in all warranties becoming null and void.
- ✓ However, whether your machines are new or slightly older, ESSVEE has a service plan that keep your units running at their optimal capacity resulting in improved power consumption and quicker cooling and heating when required.
- ✓ **What To Look for When Considering Air conditioning Services:** Air conditioning is one of the most beneficial modern-day conveniences that we have. Without it we would be miserable during the summer months when the heat can be unbearable. However, even though we rely on air conditioning each day of our lives, we often don't think about the care and maintenance that is required to ensure that our units will work at the optimum levels. Relying on the air conditioning services from trained professionals at ESSVEE is a great way to ensure that your air - conditioning unit will be properly maintained.
