FRIDGE HOUSE

PRODUCT RANGE

Company Profile

Fridge House was established in the year 1986 by technocrats Mr. M.K. Prasad & Mr. A.R. Kalluraya both qualified Refrigeration Engineers having vast experience in this line. Today we have a team of qualified technical experts who can guide you on selection of components. We are eminent importer and suppliers of Reciprocating Compressors, Scroll Compressors, Semi Hermetic Compressors, Air Cooled Condensing units, Low Temperature Air Cooled Condensing units, Evaporator Units, Flow Controls, Refrigerant Gases, Copper pipes, Fittings, Insulation etc.

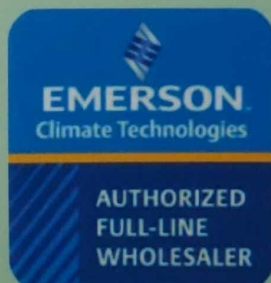

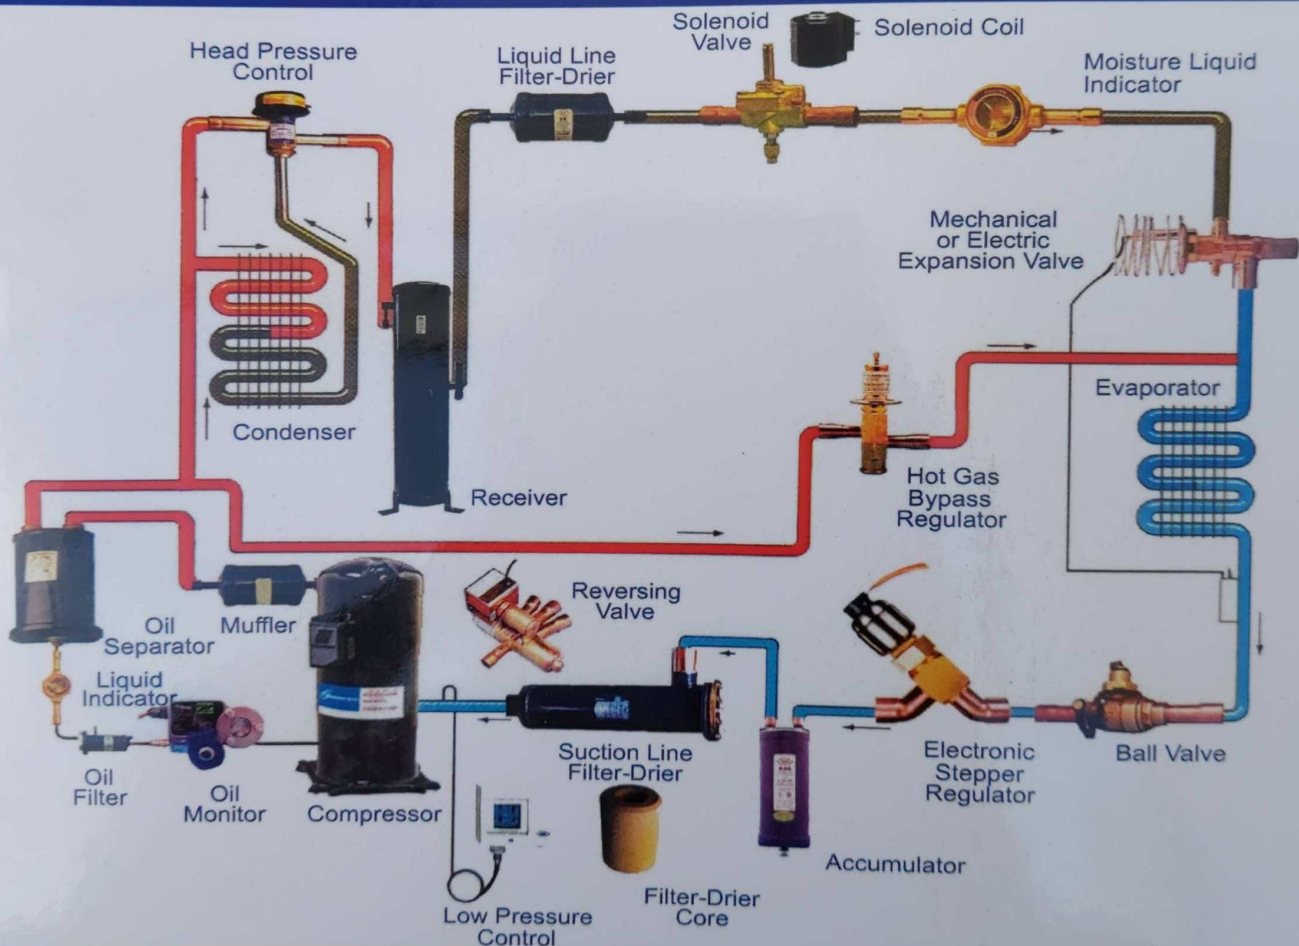

We have always ensured that the quality of equipments and components we supply is topmost and follow the policy of "No Compromise on quality" but competitive rates. Being a client oriented company we pay meticulous attention to the valuable feedback and suggestions of our customers, this enables us to live to customer's expectations, providing complete satisfaction.

In our opinion products present and determine our worth in comparison to other's engaged in the same domain. We supply impeccable and unmatched product, carving a valuable niche in the competitive industry. We are a renowned importer and trader of the products enumerated below:-
